**MONETIZING INSURANCE POLICIES, MORTGAGE DEBTS,
CAR LOANS, CREDIT CARD DEBTS, STUDENT LOANS,
HOME EQUITY AND OTHER ASSETS.**

Rationale: As fungible instruments, markets are available to buy and sell these as commercial paper capable of qualifying for private placement programs (PPP). In the international marketplace of financial instruments, debt is considered a valuable asset. PPP is

defined as “credit and deposit multiplier” in Barron’s *Dictionary of Finance & Investment Terms*. Some call it “high-yield programs,” while others not familiar with the innards of Planet Cambistry & Planet Aphnology call it a “scam.” Professionals who don’t understand the mechanism that confers a method to the madness also call it a scam because they simply don’t understand. Unless and until the potential Client understands finance and banking, I strongly suggest you perform due diligence. In essence, when in doubt, please stay out.

Method: Purchase an international bill of exchange (IBOE) as the major multiplying vehicle (MMV) for private placement programs. The minimum cash value for an IBOE is USD 5 million. The IBOE ‘s yield potential is \$25 million within 30 days or less. This multiplication continues till we reach \$17 billion in 6 to 12 months when funds will be ready for disbursement.

Multiplication is based on the credit and deposit multiplier formula first innovated by the 8th century Sanskrit scholar Pingala, and later adopted and modified by the 13th century mathematician Fibonacci. This is how the Medici family started banks and the banking system as we know it. Jews saw great advantages in this discipline with the Rothschild’s playing a lead role.

Modus operandi: The advent of the Asian Infrastructure and Investment Bank (AIIB) witnessed the burgeoning of new financial institutions that have disassociated themselves from the cabal’s anachronism influenced by the 1945 Bretton-Woods Agreement, and the constricting policies and regulatory authority of the International Monetary Fund, the World Bank, the Financial Services Authority of England, and the European Central Bank bobbing their heads in acquiescence to the ubiquitous hidden hands and agendas.

New financial houses are willing to enhance the value and worth of all sorts of commercial paper that have potential like car loans, credit card loans/debts, home equity, and insurance policies. These institutions are willing to be innovative and may even consider student loans as a creditworthy asset.

A) Life Insurance policies:

~ Purchase a \$5 million IBOE based on insured's position fee.

~ Fee for purchase of a position \$1,000.00 for each insurance policy worth \$250,000.00. A \$500,000.00 policy will cost \$2,000.00 for a position. The position fee rises incrementally for each additional \$250,000.00. Example, an insurance policy of \$1,000,000.00 will cost a position fee of \$4,000.00

~ Yield will be twice or twofold the insurance policy's worth. A \$250,000.00 policy will return a yield of \$500,000.00 within six months after the IBOE fee is paid for in full and entry into a private placement. Yield time will be 365 days once the \$5 million IBIE is attained based on position fees.

~ Proof of insurance policy required with name and address of insured.

B) Car loans:

~ For vehicles worth \$100,000.00 to \$250,000.00 your position fee is **\$1,750.00.**

~ Vehicles worth \$50,000.00 - \$99,990.00 your position fee is **\$1,000.00**

~ Vehicles under \$49,990, the position fee is **\$750.00.**

~ Yield will be twice or twofold the original price of the car. Yield will occur within six months upon purchase and placement of the IBOE. A \$50,000.00 car will yield \$100,000.00.

~ Worth of vehicle based on brand new prices

~ Proof of purchase price required.

C. Credit card debts & Student Loans:

~ \$10,000 to \$19,999.00, the position fee is **\$500.00**

~ \$20,000.00 to \$39,999.00, the position fee is **\$750.00**

~ \$40,000.00 to \$ 69,999.00, the position fee is **\$1,500.00**

~ For debts in excess of \$70,000.00, the position fee is **\$2,500.00.**

~ Yield be twice or twofold the original debt. E.g. if you owe \$20,000.00, your yield will be \$40,000.00.

~ Yield will occur within **365 days** upon purchase, placement, and yield of the IBOE.

~ Proof of the credit card application required to identify the actual loan/debt.

D. Home Equity based on the Pooling & Servicing Agreement:

~ Position fee of **\$1,500.00** for homes with proven equity of \$10,000.00 to \$199,999.00. Payout will be twofold the home equity. E.g., if your equity is \$100,000.00, the homeowner can expect a

\$200,000.00 yield once the IBOE is purchased and the first yield is due within 365 days of PPP.

~ Position fee of **\$3,000.00** for homes with proven equity of \$200,000.00 to \$299,999.00. Payout will be twofold the home equity. E.g., if your equity is \$220,000.00, the homeowner can expect a \$440,000.00 yield once the IBOE is purchased and the first yield is due within 365 days of PPP.

~ Position fee of **\$4,000.00** for homes with proven equity of \$300,000.00 to \$399,999.00. Payout will be twofold the home equity. E.g., if your equity is \$300,000.00, the homeowner can expect a \$600,000.00 yield once the IBOE is purchased and the first yield is due within 365 days of PPP.

~ Position fee of **\$5,000.00** for homes with proven equity of \$400,000.00 to \$499,999.00. Payout will be twofold the home equity. E.g., if your equity is \$300,000.00, the homeowner can expect a \$600,000.00 yield once the IBOE is purchased and the first yield is due within 365 days of PPP.

~ Proof of home purchase price and prevailing market equity worth is required.

E. Fully paid up mortgage loans and mortgage loans with zero equity.

~ Position fee of **\$3,000.00** for homes valued at \$10,000.00 to \$199,999.00. Payout will be twofold the home's value. E.g., if your realty is valued at \$100,000.00, the homeowner can expect a

\$200,000.00 yield once the IBOE is purchased and the first yield is due within 365 days of PPP.

~ Position fee of **\$6,000.00** for homes valued at \$200,000.00 to \$299,999.00. Payout will be twofold the home's value. E.g., if your realty is valued at \$220,000.00, the homeowner can expect a \$440,000.00 yield once the IBOE is purchased and the first yield is due within 365 days of PPP.

~ Position fee of **\$8,000.00** for homes valued at \$300,000.00 to \$399,999.00. Payout will be twofold the home's value. E.g., if your realty is valued at \$300,000.00, the homeowner can expect a \$600,000.00 yield once the IBOE is purchased and the first yield is due within 365 days of PPP.

~ Position fee of **\$16,000.00** for homes with proven equity of \$400,000.00 to \$550,000.00. Payout will be twofold the home's value. E.g., if your realty is valued at \$300,000.00, the homeowner can expect a \$600,000.00 yield once the IBOE is purchased and the first yield is due within 365 days of PPP.

~ Position fee of **\$50,000.00** for homes valued at \$750,000 to \$1.5 million. Payout will be twofold the home's value.

~ Proof of home purchase price and prevailing market equity worth is required.

I, _____, whose
mailing address is _____

agree to participate in the abovementioned program with the Native American Law & Justice Center.

I will be placing the (insurance policy / car loan / credit card loan / home equity / mortgage loan / home fully paid for – delete one or participate in both) into the Program, and my payment of \$_____ is hereby confirmed as wired to the account as advised.

I agree and understand that I am aware of private placement programs as defined by the credit and multiplier deposit in Barron's *Dictionary of Finance and Investment Terms*.

I agree and understand that I am not engaging in securities' transactions and that I am an accredited investor under Regulation D Section 501 of the SEC laws. I agree and understand that the PPP will be transacted in the Far East and not in the United States or Europe.

I further understand that my position fee of \$_____ shall be refunded in gold and silver in the event paper currencies become unprofitable, worthless, or obsolete owing to shaky financial markets.
